### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The prior art neither discloses, nor fairly suggests the instant catheter coated with a chlorhexidine free base as well as a chlorhexidine salt. The closest prior art is applicant's own US Patent No. 5,772,640 which also requires triclosan. The instant application is allowable over the prior art. Child application US serial number 10/600,257 contains claims over which a rejection under the judicially created doctrine of obviousness-type double patenting should be made. However, a terminal disclaimer was filed in that case (the later filed case) over the instant claims, and since this is the only remaining issue, the application is in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carlos A. Azpuru whose telephone number is (571) 272-0588. The examiner can normally be reached on Tu-Fri, 6:30 am - 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thurman K. Page can be reached on (571) 272-0602. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
